### Explanation of our volunteer opportunities:

Invasive species control- Work with or under the supervision of a land manager to remove invasive plants.

Wildlife management- Hunting or other means, as the land manager deems fit.

Trail installation- Help install trails or signs- this is heavier work and may require use of mechanical equipment.

Trail up-keep- This is the general weed-whacking, hand pruners, or light limb removal from the trails.

Trail walker- Walk portions of the trail to monitor for any damage, repair or clean up needs. Duties include light litter removal.

Species assessment- Are you a birder, botanist or butterfly enthusiast? Help us do a base-line survey and monitor preserves.

Event helpers- Would you like to welcome people and help others learn about our organization? Perhaps you can provide refreshments at an open house or “on the land” event.

Walk leaders – Help plan and lead group walks along the Clear Fork Valley Scenic Trail.

Promotions- Like to write articles, take photos, use Facebook or Instagram? Tell us how you’d like to share your talents.
